

# HEGNER

## Table Drum Sander TWS 230 for a perfectly finished surface

**NEW!**

**For a superior finish**

HEGNER TWS 230

The Table Drum Sander TWS 230 from HEGNER is ideal for sanding any kind of Fretwork. Extremely useful for removing the paper patterns and any left over glue and removing any jagged edges on the rear side of fine Fretwork. Various types of large or small work can be sanded with the TWS 230.

Easy to handle; the sanding table is easily adjustable with a centrally placed knurled screw, so that only the minimum of material is removed. The abrasive belts, with different grits available, allow precise sanding and are easy and quick to change. The exactly shaped abrasive belts use a Velcro fixing and are wound in seconds around the sanding drum.

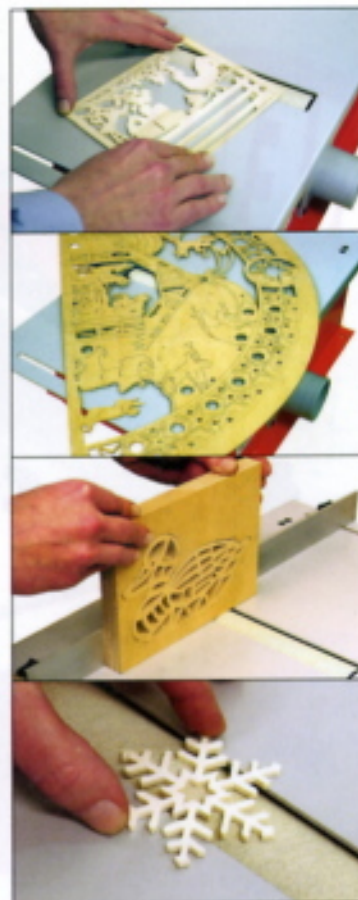

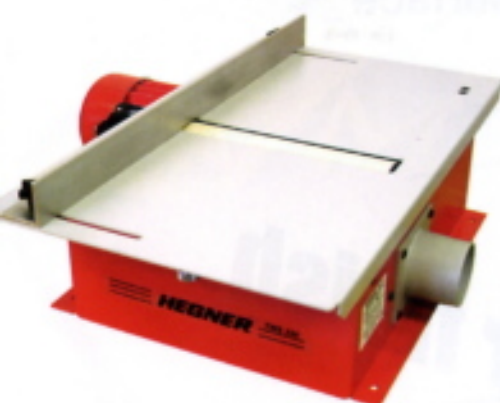

The work piece is placed on the table and gently moved over the sanding drum with enough pressure to be able to hold the work piece. It will not fly away as with a Belt Sander.

A rip fence is available as an accessory for use in the sanding of the edges of small boards.

On the right side of the TWS 230 there is the provision for fitting a dust extractor (58 mm diameter) or vacuum cleaner, for the removal of dust.

## Table Drum Sander TWS 230

The sanding table is easily adjustable with a centrally placed knurled screw, so that only the minimum of material is removed.  
(picture shows the TWS 230 fitted with the Rip Fence as an accessory).

### Technical Data:

Sanding Drum Diameter	50 mm
Sanding width	230 mm
Revolving Speed	1600 rpm / 50 Hz
Table Size	520 x 320 mm
Motor	100 Watt 1400 rpm / 50 Hz
Drive	4 groove Poly V belt
Dust Extraction Outlet	58 mm diameter

### Delivery includes:

Part No.	Description
50100000	1 Table Drum Sanding Machine TWS 230 with cable and plug 1 Abrasive belt 120 grit 1 Instruction booklet

### Accessories:

Part No.	Description
50100221	Rip Fence 40 mm high 520 mm long
50100225	Sanding Support for sanding thin workpieces (Dimensions approx. 160 x 160 x 12 mm)
90130000	Adaptor for dust extraction. Internal diameter 36 mm
50120000	Abrasive belt 80 grit (pack of 6)
50120001	Abrasive belt 120 grit (pack of 6)
50120002	Abrasive belt 180 grit (pack of 6)
50120003	Abrasive belt 240 grit (pack of 6)
